

Next Generation Exchange powered by SURPASS Softswitch Technology

Offer New 'Out of Region' Services

Are you looking for a cost-effective way to increase your customer base and develop new revenue sources while leveraging your company's existing infrastructure?

We have the answer - Siemens Next Generation Exchange!

Next Generation technology is having a dramatic effect on current business models and revenue. The Siemens NGE offering supports both TDM and packet voice services. Providing multiple services on the same platform, Siemens NGE can help stem the loss of customers to competitors such as cable and mobile providers, while providing you access to new revenue streams.

With the free information package and CD, learn how you can:

- Expand your customer base - Now!
- Improve your top line revenue with Siemens Next Generation Exchange
- Leverage your costly Network investment - Access and Outside plant
- Offer multiple applications on a single platform
- Dramatically reduce your costs
- Transition to NGN on your timetable and per your business model
